

## COLOR

Tremendous improvements in the color aftermarket have been made. Our research and development department has been working diligently to develop higher quality products that will perform to the OEM standard. We continuously perform testing on all supplies to ensure that this improved quality is passed onto our customers.

## Environmental Commitment

By choosing Laser Faire compatible toner cartridges, you are helping to ease the burden of e-waste on our environment. Laser Faire takes pride in helping organizations become more environmentally responsible, while helping to reduce the cost of printing in the office. We are dedicated to minimizing environmental damage and to providing a clear and positive environmental alternative.

- Each cartridge that is remanufactured saves approximately 1 gallon of oil.
- Every 6 months the remanufacturing industry saves 11 million gallons of oil. This is equal to the amount of oil that was spilled in the Exxon Valdez disaster in 1989.
- Our boxes are composed of three layers of recycled material.
- No hazardous chemicals or resources are used in the manufacture of our boxes.

## We Will Collect Your Used Cartridges

As part of our commitment to the environment, we offer multiple options for the convenient return of your empty cartridges. Contact your Laser Faire representative to learn more about how our imaging supplies can help you make a difference in our environment.

## Not Recommended by Laser Faire

**Toner Cartridges Known as "Drill and Fill"** - A hole is drilled into the side of the empty cartridge and is then filled with toner and sealed. Laser Faire does not sell "Drill and Fill" products as we cannot guarantee the performance or quality of these products. The toner from "Drill and Fill" cartridges is likely to leak and can cause significant damage to the printer.

## FAQ's

### Why should I choose a Laser Faire compatible cartridge?

While being extremely economical and environmentally friendly, Laser Faire compatible imaging supplies are tested and manufactured in an ISO 9001:2000 certified facility. We pride ourselves on offering a quality product. From business documents to logos and graphics, Laser Faire compatible cartridges deliver the performance you require, from first print to last! A savings of 30% - 50% can be realized when compared to the OEM.

### Will a Laser Faire compatible cartridge void my printer warranty?

No! The use of a compatible toner cartridge in your printer will not affect nor will it void your printer warranty.

### Will a Laser Faire compatible cartridge last as long as the original (OEM)?

All cartridges are manufactured in an ISO 9001:2000 certified facility and are designed to perform equal to the OEM. Our quality is ensured from start to finish!

### How do I properly store my cartridges?

Ensure that cartridges are stored in a climate controlled environment.
